Nance College of Business students vote for "Outstanding Professor"

In late March, the Dean's Student Advisory Committee conducted a campaign among business students to vote for the 2005 Nance College of Business Outstanding Professor. The Committee determined who would be eligible and how the votes would be cast and counted. The winner was Dr. Michael Polomsky, Visiting Assistant Professor in the Department of Operations Management and Business Statistics.

Dr. Polomsky was presented with a plaque and check for $1,000 at the Beta Gamma Sigma and College Honors Night Program on April 29, 2005 where he gave a short speech in which he humbly thanked the Nance College for all that it has given to him. In his speech he noted that he was a bit surprised to receive the honor since he has never graded on a curve.

Said one student, "He makes you learn through hard work and effort. He keeps class light and holds you accountable for what you do." Another said simply, "He is by far the best teacher I have had at CSU."

Congratulations to Dr. Polomsky
