Master of Science Students:

3. Haiyan Wang, “A Discrete Dimming Ballast for Linear Fluorescent Lamps”
6. Monika Dandamudi – graduated
7. Prerana Kulkarni,”Analysis and Implementation of a dimmable low frequency electronic HID ballast”.
8. Ke Chen,”Dspace implementation of a generalized method of harmonic elimination for PWM Boost Rectifier under Unbalanced Operating Conditions”.
10. Xiangpeng Zheng – in progress

Doctor of Engineering Students:

1. Wei Xiong, “Analysis and Design of the Complementary Class D Self Oscillating Inverter for Compact Fluorescent lamps”.

HONORS STUDENTS:

   a. Dan Budday
   b. John Oyster
   c. Kataria Gagandeep
   d. Amiee Bogner
   e. Nina Scheidegger
