

Cleveland State University  
EEC 682/782 Computer Networks I

Programming Assignment #2  
Due: May 3, 2005

**DISCLAIMER:** This assignment is to be done *individually*, no team work is allowed. I would like to reiterate the zero-tolerance policy on cheating. If you have referenced anything that was done by others, cite the source (URL, title, name, authors) of the referenced materials. Also, make sure to write in your own words! If you are found to have conducted plagiarism act, not only you will get 0 credit from this assignment, you will get an 'F' grade for this course and I will report you to the Department of Electrical and Computer Engineering.

In this assignment, you are going to design a personal Web site for yourself. To my best knowledge, CSU does not provide facility to students for personal Web pages (unfortunately). You are welcome to use any free or paid Web hosting services available on the Internet, or simply test your Web pages on your own computer.

The goal of this assignment is to get familiar with the basic HTML commands and Web design. Therefore, you are not allowed to use any automatic HTML generation/translation tools. You are supposed to code HTML manually by hand. Try to exercise the tags shown in the table below in your Web page(s):

Tag	Description
<html> ... </html>	Declares the Web page to be written in HTML
<head> ... </head>	Delimits the page's head
<title> ... </title>	Defines the title (not displayed on the page)
<body> ... </body>	Delimits the page's body
<h <i>n</i> > ... </h <i>n</i> >	Delimits a level <i>n</i> heading
<b> ... </b>	Set ... in boldface
<i> ... </i>	Set ... in italics
<center> ... </center>	Center ... on the page horizontally
<ul> ... </ul>	Brackets an unordered (bulleted) list
<ol> ... </ol>	Brackets a numbered list
<li>	Starts a list item (there is no </li>)
 	Forces a line break here
<p>	Starts a paragraph
<hr>	Inserts a Horizontal rule
	Displays an image here
<a href="..."> ... </a>	Defines a hyperlink

There are no mandatory contents for the Web pages you are going to design, as long as they are interesting and not offensive to others. You can consider including a photo of yourself or your family, a short biography, the courses you have been taking, your hobbies, political views, and religions etc.

You are required to turn in the following materials: source code (HTML), and corresponding formatted pages shown on a Web browser. Both hardcopy and electronic copy of the above materials are required. The electronic copy should be emailed to me at [wenbingz@gmail.com](mailto:wenbingz@gmail.com) before 11:59 pm May 3, 2005. The hardcopy is due in class on May 3, 2005.

This assignment is worth 10% for this course.

**Extra Credit:** rewrite your Web pages using XML/XSL (5% for this course).
